Maternal Pride and Societal Expectations

In many parts of India, the phrase still resonates as a heartfelt expression of maternal pride. It underscores the societal emphasis on sons as carriers of family honor and economic security. - Gender Disparities:** The emphasis on sons over daughters persists, impacting social policies and familial behaviors.
- Economic Factors:** Access to quality nutrition and healthcare remains unequal, and the phrase can sometimes evoke nostalgia

rather than current realities. Cultural Shifts: Younger generations increasingly question traditional norms, pushing for gender-neutral expressions of parental pride.
